

AccuTrac™

Single-Use Holmium Laser Fiber

**Boston
Scientific**

Flexiva™ TracTip

High Power Single-Use Laser Fiber

Introducing Trackability

Designed for reliable, one-step passage through a deflected ureteroscope.

Urology and Women's Health

AccuTrac™

Single-Use Holmium Laser Fiber

Flexiva™ TracTip

High Power Single-Use Laser Fiber

TracTip

Polished and reinforced ball-shaped output tip has the ability to track through a fully deflected scope*

Flexibility

Optimized core size of 242 microns allows for scope deflection to reach all areas of the renal pelvis

FlexShield™ Coating

Durable design and materials can withstand a 1.0 cm bend diameter at 50W*

100% Output Efficiency*

Custom Guided Connector designed to guide energy toward the core and safely diffuse any errant laser energy

Trackability

Designed to effectively pass through a 270° deflected ureteroscope.

Atraumatic

Bench and scope testing demonstrates that the fibers can pass through a fully deflected scope without damage to the scope liner or optics.*

Save Time

Designed to reduce procedure steps associated with initial advancement¹ of a deflected laser fiber to the treatment site.

One step passage eliminates the need to reaccess challenging stone locations.

Ordering Information

For use with Dornier and New Star Laser Systems		
Order Number	Description	Units
M0068404110	AccuTrac 200 Laser Fiber	Single
M0068404112	AccuTrac 200 Laser Fiber	Box 5

For use with Lumenis VersaPulse® PowerSuite™ Laser Systems		
Order Number	Description	Units
M0068403960	Flexiva TracTip 200 Laser Fiber	Single
M0068403961	Flexiva TracTip 200 Laser Fiber	Box 5

Flat Tip

Scope must be voided to avoid scope damage

TracTip

Fiber can be advanced in one easy step
